Starting June 30th, 2020 we will no longer add any new features to Azure Active Directory Authentication Library (ADAL) and Azure Active Directory Graph. We will continue to provide technical support and security updates but we will no longer provide feature updates. Applications will need to be upgraded to Microsoft Authentication Library (MSAL) and Microsoft Graph. [Learn more](#)

Redirect URI configuration

Settings

A redirect URI, or reply URL, is the location where the Entra authorization server sends the user and delivers tokens once the user has successfully signed in or signed out. [Learn more about what is a redirect URI](#)

+ Add Redirect URI Delete

i If you want to view or change implicit grant and hybrid flows settings or front-channel logout URL, please visit the settings tab.

w This app has implicit grant settings enabled. If you are using any of these URIs in a SPA with MSAL.js 2.0, you should migrate URIs. →
