How to select current orders?

1. In the **Client order** filter 
2. Check **Status** ☒
3. Select the desired order statuses
4. Close
5. Prepare the report

The screenshot shows the 'Client orders' filter window. The window has a title bar with a close button. On the left is a list of filter categories with checkboxes. The 'Status' checkbox is checked and highlighted with a red circle and the number 2. Below it is a dropdown menu for selecting statuses, which is open and highlighted with a red circle and the number 3. Inside this dropdown, the following statuses are listed with checkboxes: Confirmed (checked), Canceled, Problems (checked), Terminal (in), Next load.adr., Approaching load.pl., Arrived load.pl., Sātkta ieraušana, Next deli.adr., Approaching deliv.pl., Arrived deliv.pl., Sātkta izkraušana, Terminal (out), Loaded (checked), and Delivered. At the bottom of the dropdown are 'Clear selections' and 'Close' buttons, with the 'Close' button highlighted by a red circle and the number 4. On the right side of the window are various other filter fields like 'Search No.(s)', 'General status', 'Search', 'Transport type', 'Errors in data', 'Incoming invoice', 'Client manager', 'Consignee', 'Deliv.addr.post.code', 'Temp.regime', 'Canceled orders', 'POD', and 'Truck'. At the bottom right, there is a date range selector with 'from' and 'to' fields, and a 'Prepare' button highlighted by a red circle and the number 5, next to a 'Cancel' button.

Cargo Status

The cargo status allows you to follow the progress of the order. The following Cargo statuses are distinguished:

1. **Confirmed** – There is an agreement with the client and the carrier that the cargo will be shipped;
2. **Problems** – There are some problems in the cargo delivery process;
3. **Loaded** – Cargo is on its way;
4. **Delivered** – this status can be entered manually but it will be set automatically when the actual date of the last delivery is passed;
5. **Paid** – An invoice has been issued and paid;
6. **Canceled** – The order has been cancelled.

Information about the cargo status changes both manually and automatically depending on the settings in OZOLS TMS chosen by your company.

1. Automatically:

- Based on the car's location (by loading data from the car's GPS navigation system). More info [here](#).
- Based on loading/delivery dates (Ozols or iOzols) entered by the manager.

2. Manually:

- The status can be set in the **Client order** window by clicking. 
- Through the driver's application ([MyOzols](#)), which can be used by both the driver and the manager of the carrier. More info [here](#)

SMS message to the driver

You can quickly send an **SMS to the driver with information about the cargo** from the Client's order and from the Trip/ Spedition windows.

- 1) **Client order** in the window on the upper right side, press the button " **SMS** "
Trip/Spedition in the window on the right side, press the button " **Functions** "
- 2) **Select** the necessary information for SMS
- 3) Send cargo information in the **Driver application (No installation of application is required!)**

1. SMS from the Customer's order window

2. SMS from the Trip/Spedition window

3. SMS text settings

It is possible to customize the information that is sent to the driver:

1. Language of the text message;
2. **Show:** what information to include;
3. Message text **preview** ;
4. Tick here to set as default and not reopen this window next time;
5. **Copy and close.** Freight delivery information has been copied. Open your desired application (whats-app etc.) and press "Paste" or ctrl+v to paste.

The screenshot shows a Windows-style dialog box titled "Preparing a SMS message". It contains several fields and checkboxes. Red circles with numbers 1 through 5 are placed over specific elements to indicate the steps described in the list above.

1. Language of the text message: The "Language" dropdown menu is set to "Latvian".

2. **Show:** what information to include: The "Show" section contains a list of checkboxes. The checked options are "Loading address", "Loading date", "Delivery address", and "Delivery date".

3. Message text **preview** : The text preview area displays the following information:
Nosūtītājs: DiamondTS SIA
16.04. No: DEMO terminal SIA; N-8283 Steigen
Krava: 3PLL; heavy explosive bags 5000.00kg ADR
REF: 123
Saņēmējs: Jelgavnieks Z/S
20.04. Uz: Peab Sverige AB; Kongens gate, N-8006 Bodø

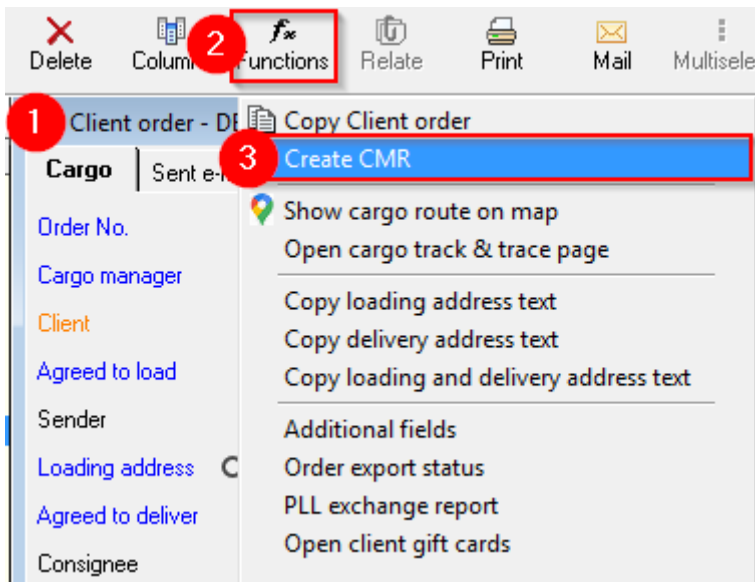

4. Tick here to set as default and not reopen this window next time: The checkbox "Copy the text without opening this window" is checked.

5. **Copy and close.** The "Copy and close" button is highlighted.

CMR how to create and print it

How to create and print the **CMR for the Client's order?**

1. Open the **Client's order** for which the CMR will be prepared
2. From the toolbar, select **Functions**
3. **Create CMR**

- Based on the Client's order information, the program automatically fills in the CMR fields
