

2) Log in

To log in to OZOLS TMS you need to enter in the registration window user data you received via e-mail

1. User: OZOLS TMS username received via email
2. Password: OZOLS TMS password received via email
3. Server: online3.cloudex.lv
4. Database: OZOLSABC

The screenshot shows a 'User authentication' dialog box. It features a title bar with a key icon and the text 'User authentication'. Below the title bar is an icon of a database and keys, and a 'Help' button. There are two radio buttons: 'Windows authentication' (unselected) and 'SQL authentication' (selected). Below these are five input fields: 'User', 'Password', 'Server', 'Database', and 'Language'. The 'User', 'Password', 'Server', and 'Database' fields are highlighted with red rectangles. The 'Language' field is a dropdown menu showing 'English'. There are three buttons: 'OK', 'Cancel', and 'Options >>'.
