

6) Incorrect letters in your local language?

If your local language characters are not correctly displayed in the Ozols TMS, please do following steps in your computer:

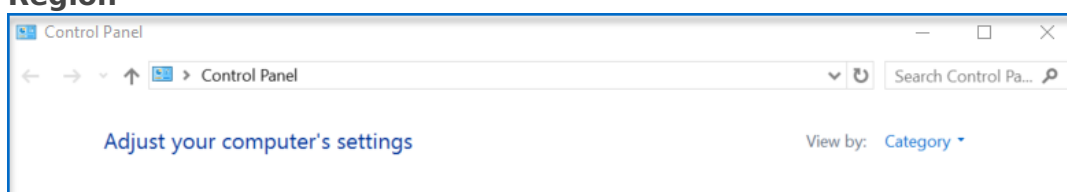

1. In Windows **"Start menu"** write **"Control"** or **"Panel"**

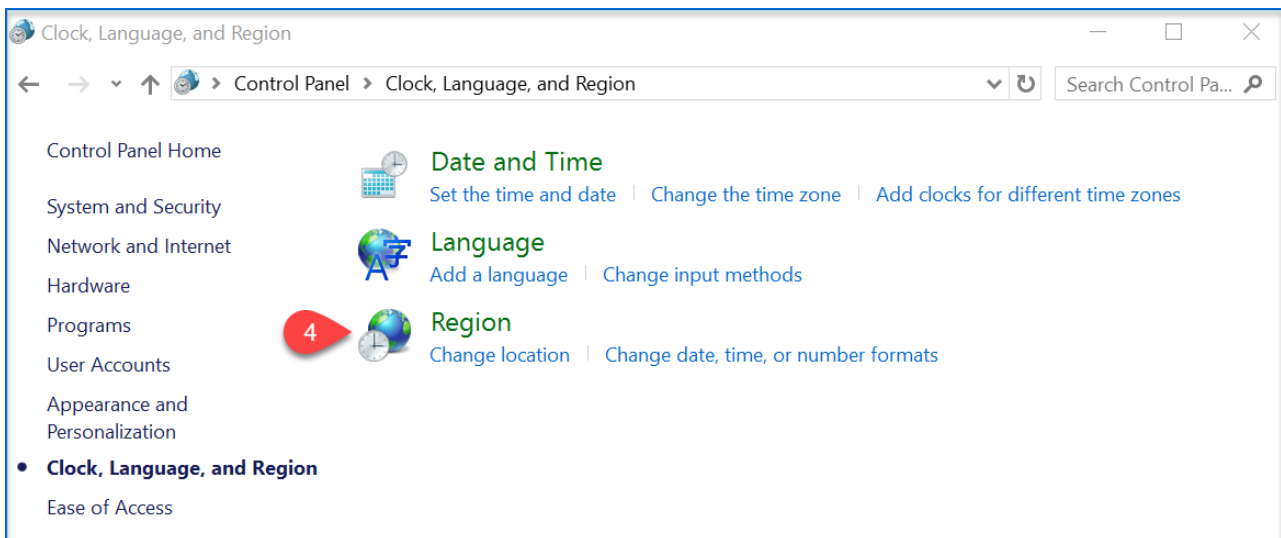

2. Choose **Control Panel**

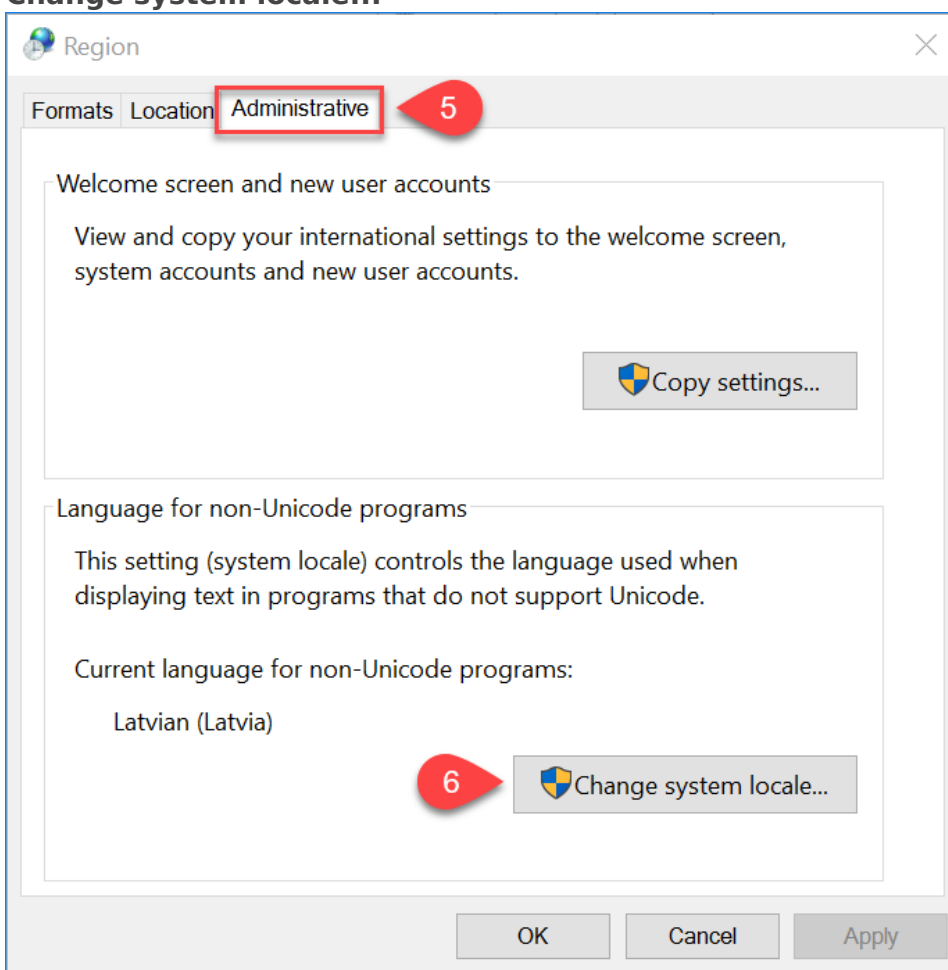

3. Select **Clock, Language, and Region**

4. **Region**

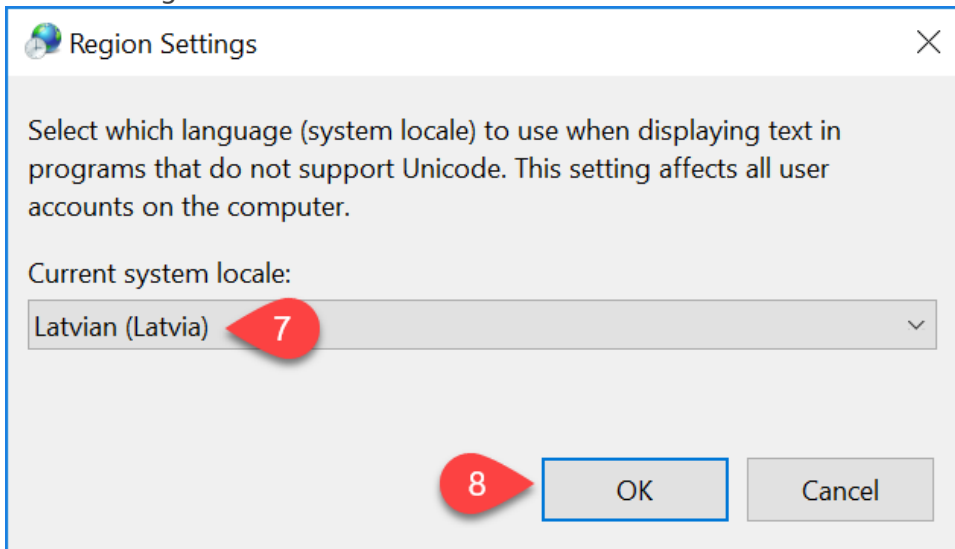

5. Open **Administrative**
6. **Change system locale...**

7. Select your preferred **language**

8. **Save** changes

If the above instructions have not solved the problem, please contact OZOLS TMS Customer Support at info@cloudex.lv or call +37 (283) 8 83 00
