GENERATE

5) A gmail password for the OZOLS TMS system is created

Generated app password

Your app password for your device

avvv evom dzto tkdd

How to use it

Go to the settings for your Google Account in the application or device you are trying to set up. Replace your password with the 16-character password shown above. Just like your normal password, this app password grants complete access to your Google Account. You won't need to remember it, so don't write it down or share it with anyone.

DONE

Email

Password

5) This password must be entered in the user's email settings in OZOLS TMS by following the [instructions here](#).

2. To send Microsoft e-mails from OZOLS TMS, you must perform the following steps:

1. Open the following link and sign in to your Microsoft account:

Sign in

Email or phone

[Can't access your account?](#)

Next

2. Select > Add method > App password

Add a method

Which method would you like to add?

App password

CancelAdd

3. Copy the password created by Microsoft

App password

App password was successfully created. Copy the password to clipboard and paste into your app. Then return here and choose 'Done'

Name:

SMTP connection

Password:
