

# Driver data import

To make it easier to get started with Ozols TMS, we recommend that you use this option to import a list of drivers by following the steps below:

1) Create an Excel document with a table that contains information about drivers:

Name	Surname	Phone Number	Car Number	Trailer number	Certificates	etc

2) Send the prepared table to the OZOLS TMS maintainers who will import this data into your database. E-mail: [info@cloudex.lv](mailto:info@cloudex.lv)
