

If Windows Smart App Control blocking your app

□ What you can do

Option 1 — Unblock manually (safer approach)

Try this first:

1. Go to C:\Program Files (x86)\Ozols\ folder
2. Right-click `OZOLS.EXE`
3. Click **Properties**
4. At bottom → check **“Unblock”**
5. Click **Apply** → **OK**
6. Run again

Option 2 — If you TRUST the app

If this is your own or known software:

1. Click **“Ok”**
2. Go to:
 - **Windows Security**
 - → *App & browser control*
 - → *Smart App Control settings*
3. Turn **Smart App Control** → **Off**

⚠ Important:

Once turned off, you **cannot turn it back on without reinstalling Windows** (this is how Microsoft designed it).
